DIPLOMA IN HEALTHCARE MANAGEMENT

(N/720/4/0129)09/25(MQA/PA 12880)

www.ijncollege.edu.my

SUMMARY

Healthcare Management is a professional study that encompasses the medical field and management. This programme enables its graduates to contribute effectively to the healthcare management needs within the healthcare industry through appropriate knowledge of management, personal skills and business leadership skills required in the industry. A diploma in Healthcare Management provides graduates a solid foundation that enables them to pursue diverse career opportunities in healthcare sectors such as hospitals, clinics, public health departments, rehabilitation centers, community health organizations, nursing homes, health insurance organizations, healthcare consulting firms, universities and research institutions.

The programme objectives are:

- To equip graduates with relevant and strong hospital administration, business skills, and healthcare knowledge in order to manage healthcare organizations
- To equip graduates with technical, problem-solving and scientific skills relevant to the healthcare industry
- To create graduates with professional attitudes who practice good ethical conduct and social responsibility.
